

The Readydoor Fire Frame Pack is approved for use with Irmade flush and grooved fire doors as supplied by Seadec, once it is completely assembled with the fire door, door frame and door set components supplied in this pack as one unit.

The complete door set, including the door, and Readydoor Fire Frame Pack items are approved for assembly, and certified under classification numbers:

- 10030.21
- 10133.22.3

Certification is only provided once the supplied components are correctly assembled. The use of alternative products is not approved.

Items included by Readydoor within the pack include:

QUANTITY	PRODUCT
1	MDF reversible door frame
1	APE Sashlock AC3L25SQSS and fire protection interdens paper
3	Freelan hinges J9500RSSH and fire protection interdens paper.
2	Flush bolt JSS51R (for use with double door sets) and fire protection interdens paper.
3	Pyroplex 8712, 15x4mm fire and brush seal to be fitted into the door frame.

For instruction details and copies of the relevant fire certs please contact your Readydoor Fire Frame Pack supplier or download the information from the QR code.
